At Zodiac Aerospace, we take innovation seriously – and we know you do, too. Our goal is to design solutions so powerful, so revolutionary that they redefine the industry. We imagine, and then re-imagine the perfect seat. Then, we go out and create it. We envisioned and simulated a series of relaxing positions to relieve stress and provide comfortable support with an optimal sense of space. We then created our most fully-realized seating concept, the FUSIO, bringing passengers lasting impressions of exceptional living room, a perfect quantum of privacy in a home away from home.
